

CALL FOR ACTION: 4th MetaboMI Meeting Integrative Metabolomics

October 2nd 2019
h 14:00

University of Milano-Bicocca
Building U4, floor -1, Room U4-08

ORGANIZERS

Daniela GAGLIO (IBFM-CNR & SYSBIO,
Milano)

Roberta PASTORELLI (IRFMN-IRCCS,
Milano)

Annapaola ANDOLFO and
Giovanna MUSCO (IRCCS Ospedale
San Raffaele, Milano)

Angela BACHI (IFOM, Milano)

INVITED SPEAKER

HANS V. WESTERHOFF

Institute of Department of Molecular Cell
Biology, Faculty of Science,
University Amsterdam, Netherlands

Enjoy the meeting and broaden the
metabolomics researchers and clinicians
community of Milan and around!

Main focus

How to integrate metabolomic profiling, 'omics'
platforms and/or computational predictive
modelling in a systems biology approach in order
to identify processes, targets and biomarkers for
metabolic diseases.

Many questions in the pipeline

- How to extract the maximum knowledge from metabolomics data?
- What type of data analysis strategies are available to this purpose?
- How to integrate metabolomics data with different omics context?
- What opportunities integrative metabolomics has to offer in the context of precision medicine?

Deadline for abstract submission

(oral presentation): **July 5th 2019**

Abstract form: 1 page should contain
Title/Authors/Affiliation

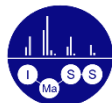

Text: no more than 300 words should
contain a brief introduction to the topic,
brief technical summary, results and
their implication

The access to the meeting is FREE but seat availability is limited.

Please confirm your attendance to metabomi@unimib.it
